

vision medical company

## COMPANY PROFILE

**Vision Medical Company B.V.** is since 2003 a Dutch dedicated supplier of high quality medical products for the healthcare market.

### **Mission Statement**

We are committed to delivering quality, innovation and professionalism, to combine with the wishes of the customer.

Vision Medical Company is committed to providing customer-oriented total solutions in the field of Anesthesia, Surgery, Electrosurgery, Neonatology, Intensive Care, Cardiology, Urology, Radiology, Emergency rooms and wards.

### **Our mission**-Innovation

Delivering innovative solutions for health care. Our products and concepts are developed in collaboration with medical professionals. These concepts must contribute in improving the quality of care for patients and professionals.

### **We are offering our products based on:**

**Reliability, Quality, Innovation and Service.**

### **Our philosophy**

We are constantly looking for new products and concepts which meet the needs of our customers. The direct sales and good cooperation with the end users contribute in optimising our range and offering products with a good price and quality level!

Direct sales, knowledge and expertise in this field make us a successful, flexible and service-oriented partner in the healthcare sector.

Our main focus is on: Hospitals, HomeCare, Private Clinics, Dental and Industrial markets.

Vision Medical Company B.V. and all our partners are ISO and CE certificated!

"As a distributor we are constantly looking for new developments fulfilling the market needs".
